

GET YOUR LAW FIRM ONLINE

A website can be your law firm's most powerful marketing tool.

Don't squander your opportunity with a cookie cutter site that cost \$1.

The San Joaquin County Bar Association has partnered with our own website provider, Brentwood Visual, to provide low-cost, yet highly effective legal websites for our members.

Perfect for anyone from solo practitioners to large firms, these websites contain everything you need to develop an effective web presence. The team at Brentwood Visual will work with you personally to identify the right approach for your firm, building a professional site that clearly and effectively communicates your firm's message to your audience.

Review our packages on the following page.

GET A FREE ONLINE VISIBILITY AUDIT

Your online presence includes more than just your website. Local business listings, review sites, and social media profiles all play a part in what your prospective clients see when they do their online research.

As a free benefit for San Joaquin County Bar Association members, Brentwood Visual will provide a free, in-person report auditing your firm's current online visibility. The report will outline your strengths, weaknesses, and opportunities for improvement.

There is no obligation associated with this free service.

Call to schedule your audit today:
